WHAT'S YOURS?

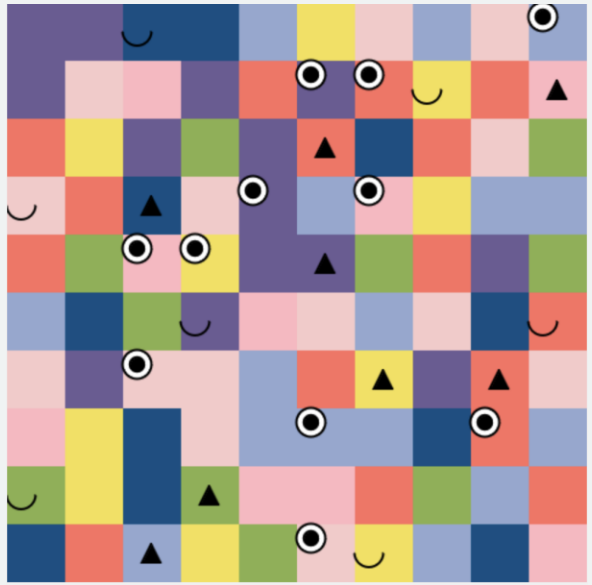

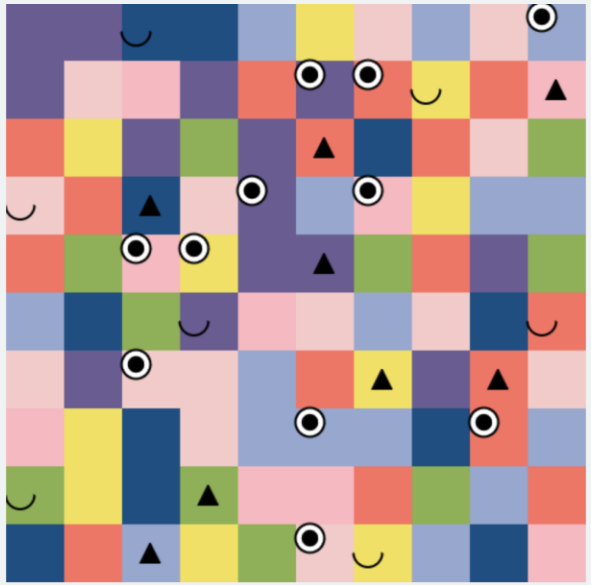

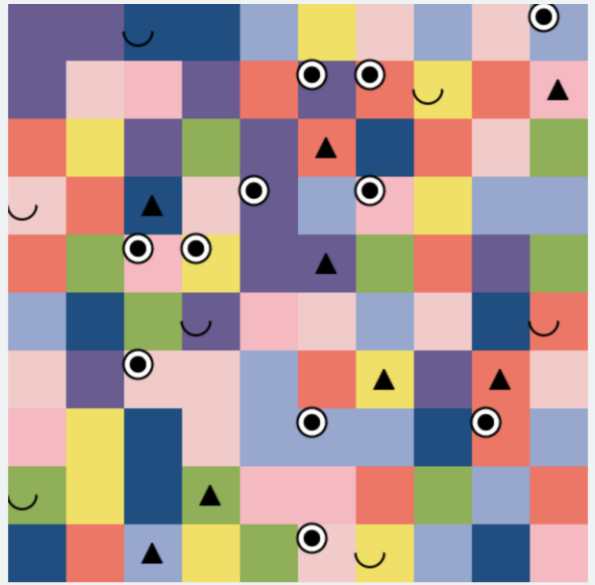

The pattern that each of u receives is uniquely generated, reflecting your individuality and diversity.

In society, much like in this artwork, each person brings their own unique identity—a combination of characteristics, experiences, and backgrounds that make them who they are. Diversity is not just about differences in appearance, gender, or culture, but also encompasses personal values, perspectives, and experiences. Just like how no two patterns in this mosaic are exactly the same, no two individuals are identical, even within the same community.

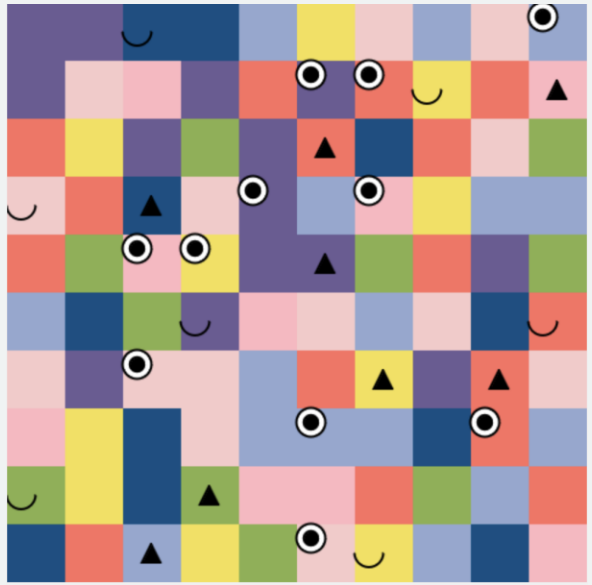

However, despite these differences, there is beauty in diversity. Just like the random face parts in each mosaic block come together to form a unified face, society thrives when diverse individuals come together, share their strengths, and learn from each other. Diversity isn't something to divide us, but rather something that can create a stronger, richer, and more inclusive community.

MEDIA AND TOOLS

HTML Canvas & JavaScript: Used to create the mosaic programmatically.

CSS: Styled the artwork presentation for seamless display across devices.

Randomization Algorithm: Added randomness to the placement of facial features to highlight uniqueness.

Color Palette: Warm and cool tones mixed to signify diversity and harmony.

Find your pieces, assemble them, and let’s make some beautiful chaos together!
